Title: Request for proposal

Reference No.:---

Date: 17/09/2010

Business Analytics System

IRDA intends to computerize the activities related to data capturing from various entities and reporting systems. The project is envisaged as a single source of information which involves consolidation of information from different sources and making them available for faster and efficient decision making and analytics. For this project, IRDA requests for proposal from reputed IT firms for a total solution on a turnkey basis for the design, development, implementation and maintenance of a Business Analytics (Online filing, Querying, Business Analytics & Intelligence reporting, Online Analytical Processing (OLAP) and Alerts) solution, supply/installation & maintenance of necessary hardware, operating system, RDBMS and/or off-the-shelf software/tools which are required **for a comprehensive Business Analytics System.**

For details, please visit <http://www.irda.gov.in>. Last date for receipt of application for bid is **8th October 2010 by 3.00 PM**
